## PROFESSIONAL EXPERIENCE

### U.S. POSTAL SERVICE — PSE MAIL PROCESSING CLERK

Saline, MI | Oct. 2024 – Dec. 2025

- Processed high volumes of mail accurately while meeting strict deadlines and service standards.
- Used computer systems and processing equipment to manage, track, and organize mail.
- Identified and addressed processing issues while following established procedures.
- Maintained accurate records and demonstrated strong attention to detail.
- Worked effectively with team members in a fast-paced, high-volume environment.

### LAUNCH — DEVOPS ENGINEER

Ann Arbor, MI | Jun. 2021 – Jul. 2023

- Troubleshoot and optimized more than 20 applications during migration to cloud-based platforms.
- Developed automation, monitoring, and migration solutions to improve reliability and efficiency.
- Provided technical support and guidance to team members and explained technical issues and solutions.
- Worked with AWS, Azure, DNS, Docker, Terraform, Jenkins, Git, and REST APIs.
- Collaborated with engineering and project teams to identify problems and implement solutions.

### LAUNCH — FRONT-END DEVELOPER

Ann Arbor, MI | Apr. 2021 – Jun. 2021

- Developed and maintained user-facing web applications using React.
- Troubleshoot and debugged application issues to identify and resolve problems.
- Integrated APIs and implemented authentication and authorization features.
- Collaborated with team members to test, troubleshoot, and improve applications.

### GRAND CIRCUS — FRONT-END DEVELOPER / TEACHING ASSISTANT

Ann Arbor, MI | Apr. 2021 – Sep. 2021

- Provided one-on-one and group technical support to students experiencing programming issues.
- Troubleshoot problems and guided users through solutions step by step.
- Explained technical concepts in clear, easy-to-understand language.
- Used patience, active listening, and communication to help users overcome technical challenges.

### U.S. ARMY RESERVE — STAFF SERGEANT

Livonia, MI | Jan. 2010 – Present

- Lead and mentor a team of up to 20 personnel while maintaining operational standards.
- Communicate procedures and technical information clearly to individuals with varying experience levels.
- Maintain accurate records and accountability for more than 150,000 gallons of petroleum products.
- Resolve operational issues while working in time-sensitive and high-pressure environments.

### PCA — HILO FORKLIFT OPERATOR

Livonia, MI | Apr. 2013 – Sep. 2020

- Operated equipment safely in a high-volume production environment.
- Maintained accurate inventory and material-handling records.
- Identified equipment and workflow issues and worked with team members to resolve them.
